CLINTON C. T. A. RECORDS

Of the 462 cows tested during June, 60 produced over 40 pounds of butterfat in the Clinton C. T. A.

P. E. Offerdale and Son again have the high herd. Their 18 cows averaged 40.2 lbs. of butterfat, and 1,210 pounds of milk. This herd has held up remarkably well, having been high in May, with the same fat average. The second high herd, that of Craighurst Farm, had 18 cows also, which averaged 39.0 lbs. of fat and 1,235 lbs. of milk.

The highest cow in the association is owned by W. J. Ward and Sons. She is a grade Holstein five years old and produced 64.8 pounds of fat from 1,652 pounds of milk.

Following are the herd averages of more than a pound of fat a day, and the cows which produced over 50 pounds of butterfat.

The following table gives the records of the cows in the association which have produced more than 50 pounds of butterfat during the period of 31 days ending July 1, 1923.

UNITE ALL FARM INTERESTS IN CO.

Organization of all agricultural interests of Rock county from the beekeepers to the livestock breeders was suggested during a meeting held in the court house Wednesday night. It is proposed to have this committee take the place of the "Rock County First" committee formed a year ago when the show herds were sent out.

What a Shame To Ruin Pretty Hands With Harsh Kitchen Soaps

Now—lovely hands for housewives. A new idea in a household soap

Your Hands Tell the Story

Rough, ugly hands tell a story to the world. A story of the kitchen, the laundry, the scrub bucket.

Most women do housework. But few want to tell it to every chance acquaintance.

Most laundry soaps contain 25 to 40% water glass. This adulterant, technically known as silicate of soda, is invariably accompanied by an excess of caustic. It is this "filler"—not soap—that ruins hands. Green Arrow is made with the precision of a toilet soap and is pure soap.

Now you can have white and lovely hands regardless of how much kitchen work you do.

For your hands and your clothes make, go to your grocer and insist on buying GREEN ARROW.

Here are pretty hands, Madam, even though you do every bit of your own work!

Wash dishes three times daily. Do the family washing if you will. Yet your hands will never tell!

What Makes Hands Ugly

3-housewives in 4 have red, rough hands. Harsh household soaps are the reason.

Most contain 25% to 40% water glass—a skin wrecker.

Beauty experts told us this. So we've worked out a gentle soap for the woman who realizes the importance of keeping her hands pretty.

Contains Olive Oil

The name is Green Arrow.

It is all pure soap—no harsh adulterants.

It is mild and bland. It does everything any household soap can do. But—it does not cause skin redness.

Start Today

Obtain a cake of Green Arrow at your grocer's today.

Then in one week note the difference in your hands.

You will thank us then for telling you about it.

And it will cost you but a few cents more a month to use it in place of old-time laundry soaps—for you must figure soap at so much per month, not so much per bar. Good soap goes further.

Green Arrow Soap comes in two forms—Cake Soap, for general household use—Chips (or flakes) for laundry and fine fabrics. Both offer you unusual advantages.

Orfordville to Have Chest Clinic

The Wisconsin Anti-Tuberculosis association and the Red Cross are to cooperate in holding a chest clinic at Orfordville July 28. Examinations will be given free and all records will be confidential. The following are urged to attend: All persons who have had prolonged contact with tuberculous people, for this disease is communicable; those who have ever had tuberculosis, for they should make sure that it is not recurrent; anemic and underweight children, persons having diseases of the chest other than tuberculosis, and all people having symptoms of the disease. These symptoms include fatigue, a persistent cough, vague pains in the chest, afternoon fever, loss of weight and appetite, indigestion, lack of pep, and sleeplessness.

WOMAN ATTACKED, IS CUT AND BRUISED

Woman—Mrs. Walter Lewandowski at the Wisconsin hospital, suffering from 20 cuts and bruises inflicted by some unknown person who entered her home in the town of Kronenwetter and attacked her as she was asleep. Her little daughter, who was sleeping with her, received two slight wounds. Mrs. Lewandowski was so stunned by the attack that she could not in any way identify her assailant. The woman was taken to the hospital and was being treated by a physician. She was admitted to the hospital on Wednesday night.

TOBACCO GROWERS TO HOLD PICNIC

ORFORDVILLE

Orfordville.—The Ladies' Aid society of the Lutheran church met on Wednesday afternoon. They were entertained by Mrs. H. Holden, Mrs. L. T. Williams and Mrs. Bell Myhre—Jacob Daubert was a visitor of the host Tuesday. A neighbor noticed the team standing in the corn field where Mr. Daubert had been cultivating corn, and upon investigation, found him lying on the ground. He secured help and later Mr. Daubert was removed to his home. He was reported as feeling improved the following day. Mr. Daubert has been confined to the house and to his bed for several days. He is reported as slightly improved. A heavy rain fell again in this vicinity Tuesday evening. The down shower was about 8 o'clock and the second and heavier of the two occurred about 11, at which time the electric lights were put out by a fuse at the substitution at Janesville. On Saturday the Triangles will play the Magnolia team at the local ball diamond. It promises to be a hotly contested game as in the former game Magnolia was the winner. The two teams will also play on Sunday.

VOICE OF THE PEOPLE

Editor Gazette:

Why do city folks go into the country and gather the berries, plums and nuts from around our yards and fields?

What would a resident in town do if a farmer and his family, all its up with pans and baskets, went into his garden and picked berries and plums?

Now our fields have no police protection nor can we afford ammunition to keep them out.

One man said a farmer thinks because he pays taxes he owns anything to travel on that same "road." What part of the road does he think he owns?

A BERRY PICKER.

WOMAN TO ENTER NAT. MILITARY HOME

Leavenworth, Kans. — The application of Mrs. Gertrude L. Butts, of Denver for admission to the national military home, was approved by General C. H. Wood, president of the board of managers of military homes in the United States and is understood to set a precedent that will result in several hundred ex-service women being admitted to the national home.

Pastor, Called by Christian Church, to Preach Sunday

The Rev. E. A. Gilliland, Normal, Ill., has wired the officers of the First Christian church that he will pay the local congregation a visit Sunday, July 15. Owing to his recent illness, he may not be able to preach except at the service at 11 a. m., but further announcement regarding the evening service will be made at that time. A large attendance of members is expected for the morning service as all will doubtless be interested in meeting and hearing the Rev. Mr. Gilliland, whose visit here may result in his becoming pastor of the church.

CRUDE and shady management has ruined many promising lads and kept them from rising in the boxing game. Take the case of Morris Schuller, the heavy hitting welterweight who showed in Janesville a couple of years ago under such a favorable impression in his two appearances here. Morris is about done, so Fred Hunter, sporting editor of the Omaha Bee, told the other day. He was shot last week. The reason, the Chicago guy who had the management of the Nebraska kid for several years, and who brought a three months' suspension down upon his head in Wisconsin, is said to have used him for all he could and then left him in bad shape. Not only did his manager leave Schuller in a poor way financially, but he failed to give proper boxing instructions. Now, so the story goes, Morris has taken so many blows upon the chin that he is only an occasional preliminary card and has lost his powers of thinking quickly.

THE SERIES of lessons which have been appearing in the Gazette of swimming has aroused more interest than any other for. The clear manner in which A. E. Bergman, physical director of the Janesville Y. M. C. A., presented his instructions met with good response. "Berzle" is willing to answer any question to further aid anxious persons to learn. He will have an article or two later devoted to replies to queries.

WHEN JESS WILLARD, the "papa" fighter of the age, and Luis Firpo, the South American bull, step into the ring at Boyle's Thirty Acres Thursday night, a crowd six times larger than that at the Dempsey-Gibbons championship fracas will peer from the darkness to watch. More interest attaches to this scrap than to the recent Shelby affair. More possibilities present themselves. Willard, aged 40, has started a sensational comeback. Should his somewhat sluggish action and pile-driver punches give him the victory, he will be next in line to meet either Dempsey or Gibbons. On the other hand, should Firpo win by his faster footwork and wild swings, plus the advantage of youth, he will be next in line.

Grand circuit races at Toledo postponed, rain.

Van Dyke Johns and Leon de Turrens, Seattle, won northwest tennis doubles title, beating J. A. McGill and G. H. Peers, Vancouver, 7-5, 6-2, 5-7, 3-6, 6-4.

Above winners will appear in national tourney at Boston next month.

Diamond Sparkles (A. P.)—Cincinnati occupying second place, result of double victory over Philadelphia, 6-2 and 2-6. Giants lead by five games. They triumphed over Pittsburgh, 6-1. Alexander pitched and Cubs reversed result of Tuesday, shut out Brooklyn, 2-0. St. Louis defeated Boston, 10-4, making it three in row. Yankees, with lead of 12 games, far in front of American. Huggins won close game from White Sox and Chicago, strengthening hold on second, getting verdict over Athletics. Indians now have lead of three games over Connie Mack's aggregation. Real race in Johnson circuit now for third Long Branch, N. J. Ho, too, is the personification of confidence. Trained down to the minute, he has been converted, chiefly by expert handling but also by high natural aptitude, from a primitive batter into a two fixed fighting machine. Since he sprang into prominence last year, no opponent has lasted the limit under his smashing blows.

Though overshadowed by the main bout, the semi-final contest of 12 rounds between Floyd Johnson of St. Louis, right hander, and Jack McAvoy of Detroit, has attracted considerable interest.

Plants and Yankees being only clubs of east to win. Wednesday there were six home runs, all in American league, three by Detroit and three by St. Louis. Right hander, right hander of Washington, rendered unconscious and had to be carried off field when he crashed against concrete in an attempt to catch the drive in game against St. Louis. Kenneth Williams, St. Louis, cracked 16th homer, while McManus Schiebner also poked four baggers, in Browns one-sided victory over Washington. Ruth smashed four hits in four times up.

Elvina, owned by W. R. Coe, features Hawthorne races Wednesday.

Spanish Davis tennis team again wins from Holland.

Scraps About Scrappers—Willard and Firpo set to battle 12 rounds in Jersey City Thursday night at 8 p. m., Janesville time. Results will be received round by round at Gazette and megaphone from second floor windows. Other bouts on the card are: Floyd Johnson vs. Jack McAvoy (10), Jim Herman vs. Cliff Kramer (8), and Tom Roper vs. Young Bob Fitzsimmons (8). Jack Malone meets Italian Joe Gans at East New York, Thursday (12). Charley Wright, Chicago, lightweight, and Richie Mitchell of Milwaukee, to meet for 15 rounds in New York next Wednesday.

MacDonald Smith's 150 leads field in national open golf.

Walter Hoover, Duluth, who lost sculling title last week, to try for Olympics.

R. Leary Leads Pat's Batters

The reason for the good record being set up this season by St. Patrick's baseball team is shown in the individual batting averages, given out Wednesday by Manager Harold (Pork) Hamming. Ray Leary, captain of the list with .610, having 35 hits in 57 times at bat in eight contests.

Three home runs have been made by players on the team—Don Dawson, J. Leary and J. Clark. Don Dawson also features with two triples, while one each has been made by Mike Dawson, J. Casey, Ray Leary and Cullen. In Dublin, Don Dawson has five, Ray Leary four, Sheridan two, C. Clark, 1; Cullen, 2; Mike Dawson, Kober and Young, one each.

When it comes to stolen bases, Ray Leary leads the burglars with seven. Others have: Cullen, 6; Mike Dawson, 6; C. Clark, 5; Don Dawson, 5; Sheridan, 5; Cassidy, 4; J. Clark, 3; Kober, 3; Casey, 1.

Big Bout Outcome Is Toss-Up; Local Golfers Win

AGE, EXPERIENCE WILL MEET YOUTH AND MIT MACHINE

[BY ASSOCIATED PRESS] Jersey City—Two modern gladiators, one from the practices of Kansas and the other from the far stretches of the Argentine, will stake their pugilistic futures Thursday in a 12 round match in the arena at Boyle's Thirty Acres here.

For Jess Willard, champion of the world from 1915 to 1919, it will be the acid test in his comeback in which he hopes to obtain a return match with his conqueror, Jack Dempsey. For Firpo, it will be the critical point in one of the most sensational careers of ring history, a stepping stone, if he is victorious, to a chance at Dempsey's crown.

Advance Sale Over \$5,000

A colossal crowd of probably more than 20,000 fans from all parts of the western hemisphere was expected to witness the combat.

Advance ticket sales had passed the \$5,000 mark Wednesday night and indications were that this figure would be more than doubled by the time the fight program begins at 8:15 p. m. eastern daylight time.

Both fighters Thursday were declared fit for the greatest efforts of their unusual careers, and experts

predicted a close fight. The fight returns direct from the ring at Jersey City of the Willard-Firpo match will be more than a sporting event, it will be a social event, the editorial rooms of the Gazette. Be on hand early and pick a good spot on the corner.

Remember the popularity of the Gazette's returns July 4 and don't fail to be present!

As an extra attraction, a radio concert will be given. By special arrangements between the Gazette radio department and the Wisconsin Electric Sales company a power amplifier was installed Thursday and music will be broadcast from the second story windows.

Bring your wife and children along and enjoy a good time provided for you by Wisconsin's most progressive newspaper.

who weighed pro and con the rugged youth, punch and aggressiveness of Firpo against the generalship power and gameness of Willard regarded the outcome as a toss up.

Willard's 40 years or so seemed to weigh but little on his huge frame as he went through his final limbering up exercises. The big Kansan was the picture of confidence and good condition. His belief is that he has overcome the handicap of four years of ring idleness.

Firpo is Fighting Machine

Firpo passed Wednesday night in New York after boxing camp. Long Branch, N. J. He, too, is the personification of confidence. Brooks Turns in an 86 at Inwood in Morning

Inwood, N. Y.—R. Douglas Brooks, Janesville, Wis., took 86 for the morning round.

[BY ASSOCIATED PRESS] Inwood, N. Y.—Robert T. "Bobby" Jones of Atlanta, launched another rally for national title honors Thursday in the fourth and final qualifying field for the 1923 open championship.

Last year at Skokie he shared second honors with the veteran professional John Black, with a card of 289, one stroke behind Gene Sarazon's winning 288.

Jesse Guilford of Auburndale, Mass., former amateur champion, paired with William Brand of Upper Mont Clair, N. J., and Jim Barnes, the lengthy Pelham, N. Y., pro; John J. Farrell, the veteran pro of the Quaker Ridge club at Mamaroneck, N. Y., Richard Walsh, National public links champion, and Charles Hoffman, of Philadelphia, are other stars in the field.

Twenty of the players in Wednesday's field qualified. MacDonald Smith of San Francisco, led the field with a card of 150, for the 36 holes.

LITTLE LEGISLATION FOR EDUCATION

[BY ASSOCIATED PRESS]

Madison.—Very little legislation beneficial to education was enacted by the recent legislature, according to John Callahan, state superintendent of public instruction.

In all, about twenty-five bills relating to education have become laws, and with the exception of the statute relating to physical education, not one of them will help to equalize educational opportunities for the children of the state, Mr. Callahan said.

"Yet our department presented a comprehensive educational program to the legislature. It included uniform and higher certification regulations for rural teachers, a county board of education with power to appoint a county superintendent, recognition of

the state's duty to mentally handicapped children and the reorganization of state aid to schools by recognizing the valuation of the school district as an item in determining the amount of state support.

Veoles Kill Bill.

"The legislature passed several of the measures proposed. Among these were a certification law increasing the educational requirements for high school teachers, measure providing for \$100 per pupil state aid to those communities maintaining special opportunity classes and a provision that the state shall pay the cost of instruction of county training schools and rural teachers. These were vetoed by the governor, probably for the reason that nothing had been done to adjust the tax burdens of the state.

"Besides these, several bills forming a part of the state educational program were passed by the assembly, but were non-concurred in by the senate. Among these were the elementary teachers' certificate bill and the Blomberg bill providing for \$100,000 state aid for school districts to be distributed on such a basis that the districts with low assessed valuations would receive proportionately greater aid.

No Money for This.

"Even the physical education bill, which became a law through the signature of the governor, was made almost ineffective for the present by failure to provide funds for its operation.

"Perhaps it is too much to expect that a clean cut program for education in the state should receive approval of our law making body on the first attempt. Education has seldom if ever been an important plank in our political platforms. It is the purpose of the state department to keep placing the facts in regard to an educational program before the people of the state, believing that when the voters are in possession of the facts that effective reforms will be demanded.

A Suggestion for Germany.

Better Than in Korea.

"It says here that unmarried men in Korea always are treated as boys, no matter how old they are," grinned Mr. Grouch.

"Hubb" retorted his wife, "and over here we have to treat the married ones like babies, no matter how old they are."—Cincinnati Enquirer.

Reduce Your Fat Without Dieting

Years ago the formula for fat reduction was "diet"—exercise. Today it is "Take Marmola Prescription Pills." Friends tell friends—these friends tell others. They eat substantial food, live as they like and still reduce steadily and easily without going through long stages of tireless exercise, starvation diet, and abuse of greases and salts. Marmola Prescription Pills are sold by all druggists. This would cost you one dollar for ease, or if you prefer you can order direct from the Marmola Co., 4612 Woodward Ave., Detroit, Mich. SELF-MADE M A N

Popular in New York but Some
Aver He Invites Re-
ligious Issue.

By DAVID LAWRENCE
Copyright, 1923, by Janesville Daily
Gazette.

(This is the eighth of the series
of nine articles by David Law-
rence on presidential possibilities
and impossibilities, giving an ap-
praisal of the political assets and
liabilities of the men most talked
about today for the republican
and democratic nominations. Mr.
Lawrence has just finished an ap-
praisal of the western part of the United
States with President Harding
and is now enroute to Europe to
make a detailed survey of re-
publican problems there. At the
conclusion of this series, Mr.
Lawrence's daily cables from
Europe will begin exclusively in
the Gazette.)

Governor Al Smith of New York is
the natural and inevitable candidate
of the democratic
party for the
presidency. If
the party decides
to bet on him,
he has made the fight
for the state
the prohibition
question. He has
twice carried New
York state, which
has the largest
electoral vote in
the union, and he
has a sympathetic
following in the
other populous
eastern states.

The general supposition of those
who have been discussing Al Smith's
candidatecy is that the democratic
party would come out flatly for a re-
peal of the eighteenth amendment.
Such strategy would be doomed to
failure. What democrats would be
more likely to urge if anything, is
that the entire prohibition question
be taken out of the hands of the fed-
eral government for enforcement and
left to the individual states to inter-
pret and regulate. They would say to
the dubs, "You may have prohibition
wherever a majority of the people of
the sovereign states in the union
want it, but do not interfere with the
people in those wet states where a
majority would prefer light wines
and beer."

States Rights Issue
The issue would be states rights
and not whether prohibition is a good
thing or not. Governor Al Smith's
memorandum signing the repeal of
the Miller-Tamm law would be the
platform of the party. The document
has been analyzed and supported by
some of the best legal minds in the
country and regardless of the attitude
taken in western states the fact is
that there are a great many votes
available to a democratic candidate
who stands on the states rights issue.
For prohibition is still a live issue
in the eastern states, however arid
the west may have become.

The democratic leaders will have
to decide first of all whether they can
win by a combination of eastern
states and southern states. If that is
their strategy they will forget about
the agrarian discontent in the west
and center their efforts on a wet can-
didate.

There is one phase about Al Smith's
candidatecy which bears no relation-
ship to the prohibition question. It
is his religious position. It is a
Catholic could not be elected presi-
dent of the United States and that it
would be futile to nominate him.
This is predicated on the theory that
religious wars would ensue and that
the candidate of the other party
would be the beneficiary of such
strife. On the other side of the ques-
tion are some interesting facts. For
instance, a Catholic has recently been
chief justice of the United States,
namely, Edward Douglas White. Sev-
eral Catholics have been elected to
the governorship of various states of
the union. Many Catholics have been
members of the cabinet. There are a
great many people, moreover, who
would resent the issue of religious
rights and who would take the po-
sition that if the Empire state of the
union could afford to ignore religious
questions and elect Al Smith gov-
ernor, so might the federal electorate
itself.

Prohibition Alone
Al Smith's opportunity, however,
will not turn on anything but the
prohibition question. His chances
will be quickly determined just as
soon as it becomes apparent that the
party leaders want him to make an
issue of prohibition. The fight be-
tween the wets and the dubs inside
the democratic party must be made
first. The last democratic convention
revealed exactly that kind of a dead-
lock and it resulted in neither side
being able to get a plank in the plat-
form.

Governor Al Smith has behind him
a career which appeals to the im-
agination of the average man. He is
a self made man. He is an American
of the Grover Cleveland type. He has
a keen mind and a rare faculty of
getting at the bottom of things. His
popularity in New York state was a
fact before prohibition became acute
as a political problem. He would
have been re-elected in 1920 but for
the general republican landslide. He
was beaten by only 70,000 the year
while Harding carried the state with
a million plurality. None of this
could be attributed to "wet" strength.
The question voters friends of Al
Smith are asking is when in the re-
cent history of the democratic party
has there been a man who could dem-
onstrate such strength in the Empire
state? The electionists then have gone
to make up Al Smith's popularity in
New York state are to be found in
New Jersey, Connecticut, Massachu-
setts and Rhode Island.

Tammany Behind Him
Elections used to be determined
largely on what a candidate could do
in New York state. The solid south
plus a few eastern states makes a
combination of electoral votes that
can win. Ordinarily this might be
dismissed as futile but this time
there is a good chance that Henry
Ford or La Follette will divide the
republican electoral vote in the
western states where the democrats
wouldn't have a look-in unless they
had a radical candidate.

Under such circumstances "the east
plus the south makes a winning com-
bination. Will the democrats try it
with a light wines and beer plank?
If they do they will be bold enough
to consider Al Smith. The democ-
ratic party conventions are con-
trolled as a rule by the organizations
of the more populous states. Al Smith
has played ball with Tammany. He
would start out with New York's 30
votes and probably would have the

sympathetic support of Illinois, New
Jersey and Massachusetts. It's too
early to say how far his candidacy
will go, but he will be in the running
if the democrats decide to make
the fight on states rights.

Ford Salvages 90,000,000 Feet of Lumber Annually

Detroit—Salvaging of approximately
90,000,000 feet of lumber annually
at its Highland Park Plant, is the
Ford Motor Company's contribution
to national forestry conservation.

The salvage department, formed
principally as a means of reducing
waste, is conducted purely as a con-
servation agency. While it was not
the intention of the company to make
it profit-producing, yet by putting it
on an efficient basis it has progressed
to the point where it is now self-sus-
taining.

Aside from the wood used in manu-
facturing automobiles, the company's
requirements for packing and ship-
ping ran into enormous figures.

An average of 800 men are em-
ployed, working 24 hours a day in
three eight-hour shifts, and the work
includes the operation of the lumber
yard, sawmills and the handling of all
new and old lumber for shipping.

While every day the Highland Park
plant uses more than 200,000 feet of
new lumber in making shipments, the
salvage department daily recclaims
nearly 300,000 feet of old lumber and
converts it into boxes, crates, cists,
braces, and other pieces. At present
the salvage department is turning out
an average of 15,000 boxes and crates
a day.

WISCONSIN CITY HAS BIGGEST MAYOR IN UNITED STATES

Keweenaw—The little city of Ke-
weenaw, Wisconsin, lays claim to the
biggest mayor in the United States.
William Karstens, the municipali-
ty's chief executive, tips the scale
at nearly 430 pounds. There is no
other mayor in the country who can
equal this record, citizens of Ke-
weenaw say.

Besides handling the duties of city
executive, Mayor Karstens is chief
in the principal hotel of the community,
which he owns. He formerly made a
picturesque chief of the fire depart-
ment, according to natives.

The wise father husbands his re-
sources in order that he may husband
his daughters.

Cost Sheet Drawn Up for Oil Work

In figuring special assessments for
street cleaning this year, the city en-
gineering department is using the
following cost sheet prepared by
City Clerk E. J. Sartell:

Gasoline, 10 and 11-100 cents per
gallon; oil, 6 and 7-100 cents per
gallon; truck, \$2 per day; team, \$8
per nine-hour day; labor, 40 cents an
hour; and sand, 60 cents per yard.

It is figured that the oiler holds
500 gallons, the city truck hauls two
yards of sand at a trip and teams
carry one and one-half yards. On
top of the total cost, a 10 percent
charge is added for overhead which
includes leaseage on oil, cost, and
maintenance of oilers of tank, su-
pervision and all other costs.

NEW BILLS IN ALL THEATERS, FRIDAY

The Beverly's mid-week bill will
close Thursday night, when "The
Town Scandal," with Gladys Walton,
will be seen for the last time. The
week-end bill is made up of several
attractions, chief of which is "The
Man from Glengarry," with Pauline
Garron, a story of the north woods
from the world-famous novel by
Ralph Connor. Other attractions are
the serial, "Haunted Valley," which
weekly takes Ruth Roland through
hair-raising escapades; and some
comedies. The new bill starts Sun-
day, with "Fragrant Daughters," a
Gloria Swanson production.

Friday will see another change of
program at the Majestic, when "Den
Quikshot of the Rio Grande" will
open for two days. It stars Jack
Hoxie in a story of the wild and
woolly west. The picture now at this

theater is "The Prince of Palomar,"
well remembered from its first show-
ing here.

"Wandering Daughters" has been
found, by Apollo patrons, to be an
unexpectedly good picture. Not that
these are unusual at this theater, but
so many exposures of the modern flap-
per have proved disappointing that
fans were not expecting the treat in
the excellent picture "Wandering
Daughters." It is an enthralling story
start to finish, and carries a real les-
son. Thursday night will see the last
of it, and for Friday, Saturday and
Sunday there will be vaudeville and
"Cur a Woman, Love Twice" star-
ring Ethel Clayton.

DEMAND RELEASE OF AMERICAN PRISONER

(BY ASSOCIATED PRESS)
Washington—Representations
were made to Mexico City by the
state department for the immediate
release of N. A. Newman of Chicago,
who according to consular reports
is held for ransom by bandits.

UNANIMOUS IN DRY VOTE

Atlanta—Unanimous opposition
to the bill to repeal the Georgia
prohibition law was expressed by the
house temperance committee voting
to return an unfavorable report on
the measure.

Ten Cents a Day Is Wage of Mex Worker

Mexico City—Twenty centavos, or
ten cents in American money, is what
the Indian workers of the Colima-
huaca district, state of Oaxaca, earn in
a 12-hour day, according to a report
submitted to the department of in-
dustry and commerce. These laborers
make palm leaf hats.

ROLL UP SKATE TO RADIO

Engineers of the Crosley Manu-
facturing company, Cincinnati, took a
radio receiver, and an amplifying
horn to the Hill Top rink and install-

ed it to test the possibilities of using
broadcast music for skating. This is
the first time anyone related to radio
music. The experiment from station
W. J. W. showed possibilities of utiliz-
ing this new air power are unlimited.

To Wear Thin Waists or Sleeveless Dresses

(Beauty Topics)
With the aid of a delatone paste, it
is an easy matter for any woman to
remove every trace of hair or fuzz
from face, neck and arms. Through-
out the powdered delatone and water
is stirred into a thick paste and
spread on the body surface for
about 2 minutes, then rubbed off
and the skin washed. This com-
pletely removes the hair, but to avoid
disappointment, get the delatone in
an original package and mix fresh.
